

To Whom it May Concern:

I highly recommend Sara Sosa as a candidate for employment. Sara was employed by Liberty Software as an onsite installer and trainer. Sara was responsible for installing hardware, software, and various interfaces for pharmacy software applications. She was also responsible for training not only pharmacy personnel, but owners and upper management as well as new employees. Sara has excellent communication skills and excels at everything she does. In addition, she is extremely organized, reliable and a hard worker. She very quickly became a subject matter expert and a great example to fellow employees. Sara can work independently and is a great asset to any team.

I had the pleasure of training her and watching her grow from a new employee to leading her own installs, and then as a fellow regional lead. She has excellent follow through to ensure that the job gets done and gets done right. She is flexible and willing to work on any project that is assigned to her and is quick to volunteer to assist other areas of company operations, as well as fellow coworkers. Sara would be a tremendous asset for your company and has my highest recommendation.

If you have any further questions regarding her background or qualifications, please do not hesitate to call or email me.

Sincerely,
